

THE NEW HAULMARK TRANSPORT DLX PULLING AHEAD

GET YOUR MONEY'S WORTH!

THE NEW TRANSPORT DLX

MORE FEATURES THAN COMPETING BRANDS

One-piece aluminum roof – no more seams in the roof.

.080 aluminum top edge wrap – resists denting and provides additional strength.

Exclusive TPO front cap – doesn't fade like fiberglass and doesn't crack like ABS.

Two rear ramp door support cables – facilitate smoother and more stable operation.

3/4-inch plywood floor – more strength and durability to support your load.

Wall studs on 16-inch centers – reduce sidewall flex and adds strength to walls.

Tube frame design instead of more common I-beam – increased structural rigidity that provides solid foundation.

The only "Automotive Model" warranty in the industry – one company, one warranty, one phone call – you don't have to call each individual parts supplier to get help.

Shown with standard steel tube frame and tongue for maximum structural rigidity. Optional stone guard protection for improved appearance and better return on investment.
